Jl. Gatak No.303, Jaranan, Banguntapan, Kab. Bantul, DI Yogyakarta

SUMMARY

Front-End Developer with 2 years of professional experience specializing in React ecosystem technologies including React, React Native, and Next.js. Currently contributing to a mobile application at Bank Saqu, focusing on partner integrations, financial transaction flows, and scalable UI architecture. Strong experience in building production-grade web and mobile applications with proven ability to collaborate in agile teams and deliver high-quality front-end solutions aligned with business objectives.

EXPERIENCE

PT Cipta Sedaya Digital Indonesia – Yogyakarta, Indonesia Jun 2024 – Now

- Delivered multiple production projects using Next.js, React Native, and Expo, supporting business growth, cost efficiency, and external partnerships.
- Contributed to and improved the design system repository, building reusable and consistent UI components across the application.
- Implemented secure API integrations, input validation, sanitization, and security concerns to prevent vulnerabilities.
- Currently assigned as a Front-End Developer for Bank Saqu, contributing to a production mobile application used for financial and partner-related services.

Berijalan Bootcamp Technocenter – Yogyakarta, Indonesia Feb 2024 – Jun 2024

- Participated in an intensive front-end development program, working on real-world projects using React.
- Collaborated in a team-based agile environment, following sprint planning, task breakdown, and iterative feedback.
- Implemented Server-Side Rendering (SSR) to improve SEO and application performance, reducing loading time by up to 45%.
- Strengthened understanding of production workflows, clean code practices, and performance optimization techniques.

Fun Robo – Yogyakarta, Indonesia Nov 2023 – Dec 2023

- Built a landing page website from scratch, contributing to improved company visibility.
- Designed and implemented responsive user interfaces for both web and mobile platforms.
- Integrated APIs and connected front-end features with backend services.
- Worked closely with stakeholders to translate requirements into functional and user-friendly interfaces.

PT. Gemilang Media Wisata – Yogyakarta, Indonesia Aug 2023 – Nov 2023

- Gained hands-on experience working in a team-based development environment, collaborating with designers and developers to deliver website features.
- Contributed to revamping the website user interface and implementing e-tourism features
- Assisted in improving website performance, contributing to a 75% reduction in loading time through UI and front-end optimizations.
- Applied agile development practices, including task planning and iterative delivery

EDUCATION

Universitas Atma Jaya Yogyakarta– Yogyakarta, Indonesia Sep 2020 – Jun 2024

Bachelor's Degree in Informatics, 3.64/4.00.
